Pinterest is using cook

or easy dinners, fashion, etc.

Please remember this is a menu of work to be completed. Try your best but I do understand the difficulty of the situation we find ourselves in. The best way to engage children at this age in learning is through plenty of fun and active activities. Use your own home environment and the physical resources you have on hand. Also engage in plenty of activities such as cutting, sticking, tearing, painting, make & do, play dough or activities that involve sand, water, foam, beads, pegs etc. If you have any academic questions or queries or if you would like to show me some of your work please email me, I would love to see it. msmayerockfieldns@gmail.com
